

# What's happening @ SGS STEAM Camp 2017?

## Movie Madness

With Ms. Lulu in the Cascade Room

Learn the art of story telling through movie and audio recording. Experiment with green screens and edit your work using iMovie!

## Connecting to the Sound

With Kyle in the Lab

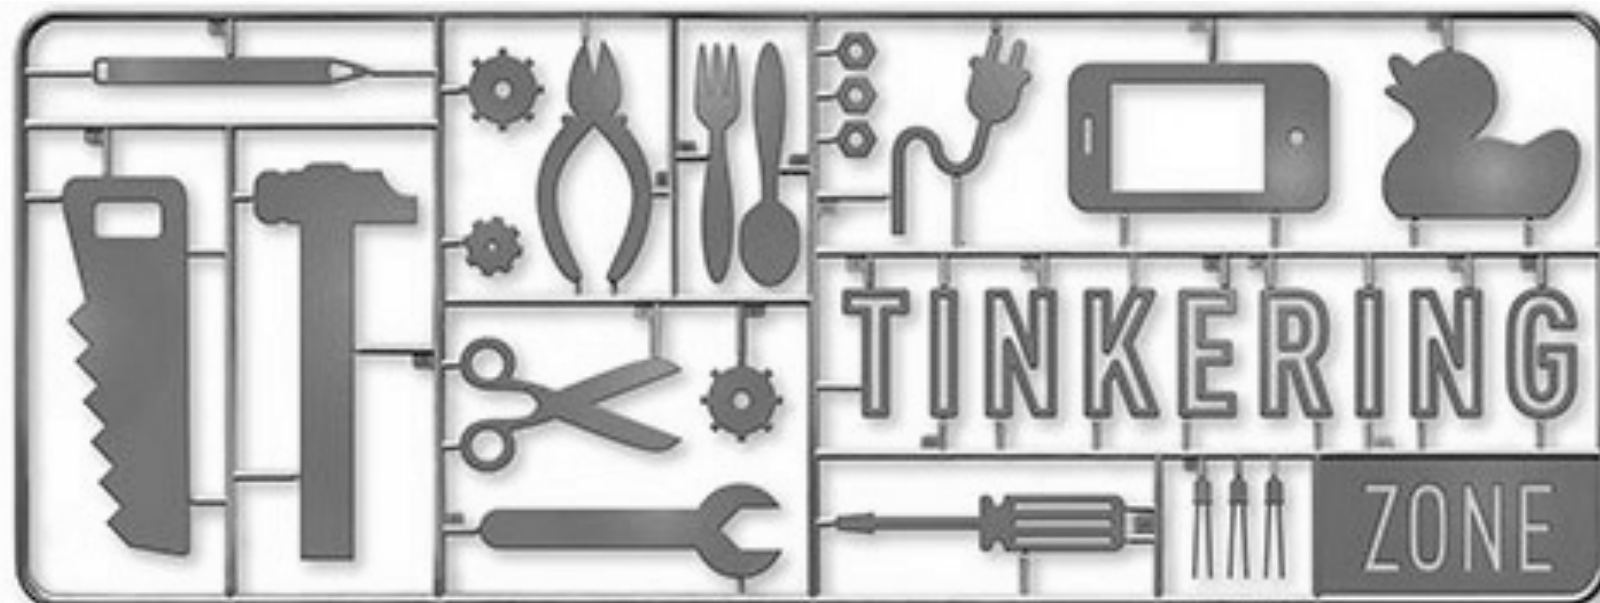

Learn about Marine Health by running experiments, using microscopes, and building an under water exploring ROV!

## Creature Carriers

With Shannon in the Olympic Room

Design various modes of transportation considering various energy sources. Build your own rockets, cars, boats, and more!

When you're not in official classes, you can continue to tinker on your own if you'd like. There are toys and tools available in the **Tinkering Zone** for you and your newfound friends to play with.
